WORK EXPERIENCE

GRADUATE ENGINEER TRAINEE

HCL Technologies Limited, Noida, India

10/2025-Present

- Developed and optimized Java code for key application features, improving performance metrics by 20 percent and resolving the three biggest causes of application crashes.
- Implemented data-driven test framework integrating Selenium and Cucumber, detecting 42 critical defects before release and reducing post-deployment bugs by 35 percent.
- Deployed robust debugging and analytical strategies using Postman for REST API testing and Git for version control; reduced critical defects by 42.
- Tools/Technologies** – Selenium, Java, TestNG, Cucumber, Postman

Flutter Developer Intern

EPVI New Technological Epoch Pvt. Ltd., Gurugram, India

12/2023-03/2024

- Crafted and upheld innovative mobile apps on Android/iOS utilizing Flutter frameworks; improved user engagement metrics leading to an increase of over 1,200 active users within three months.
- Collaborated with cross-functional teams to design, develop, and deploy user-friendly interfaces.
- Integrated third-party APIs and REST APIs to enhance app functionality such as social media sharing.
- Tools/Technologies** – Flutter, MySQL, Android Studio, Postman

PROJECTS

Water Footprint Calculator (Team Size-4)

01/2024-09/2024

Flutter, Machine Learning, Dart, MySQL, Python

- Created a robust full-stack Android app featuring Flask-powered RESTful services and an intuitive React interface that increased daily active users to over 1,000 shortly after deployment.
- Executed a robust GitHub OAuth solution that facilitated real-time retrieval of repository information from more than 500 active users while ensuring secure authentication protocols were in place throughout the process.
- Visualized GitHub data to show collaboration.

EpVi Guest

03/2024

Flutter, Bloc, http, MySQL

- Executed targeted improvements on all app interfaces that resulted in positive feedback from users regarding consistency and ease of navigation; led to an average rating of 4.1 stars on the Google Play Store.
- Worked closely with design teams to translate concepts and wireframes into polished user interfaces.
- Deployed on Google Play Store with over 1,000+ downloads.

Assignment Management System

04/2022

Android, Java, XML, Firebase

- Engineered intuitive XML layouts and Flutter components; boosting user engagement metrics by 25 percent through enhanced navigation and a cleaner interface.
- Utilized Firebase Firestore for efficient storage and management of assignment data, including submission records and grading.
- Implemented secure user authentication using Firebase Authentication to ensure only authorized users could access and submit assignments.

TECHNICAL SKILLS

Languages: Java, Python, HTML, MySQL, Android

Frameworks and Libraries: Selenium, TestNG, JUnit, Spring Boot, Flutter

Tools and Platforms: Eclipse, Cucumber, Android Studio, Postman, Git, GitHub

CERTIFICATIONS

- AI and Gen AI Fundamentals
- Prompt Engineering with Claude
- Mobile Testing Fundamentals

ACHIEVEMENTS

- 97 percentile in Naukri Campus Young Turks.
- Successfully completed the Google Cloud Arcade Program in six months.
- 2nd rank in Respirer Air Quality Hackathon.
- 1st rank in Inter-department Rangoli Competition.
